Easily control your camera remotely.

View, organize, edit and share your pictures.

Intuitive iPad Application controls key camera functions, e.g. focus point, exposure, aperture and speed - for photo and video.

Download still images directly to the iPad for immediate post-production and sharing.

Quick and easy intervalometer and time lapse set up.

On screen Focus Peaking indicator to ensure crisply accurate focus and Zebra filter to help correct exposure.

Real time live view monitoring on the iPad screen.

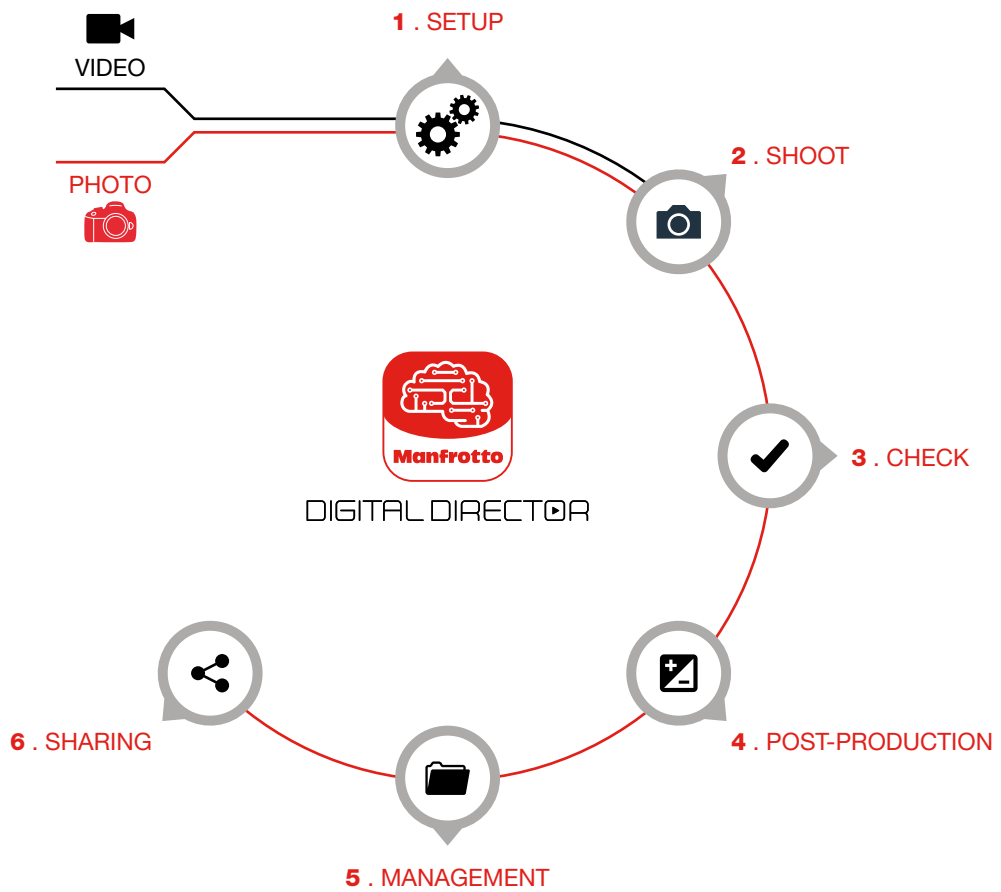

Controls (up to 13) Manfrotto LYKOS & Litepanels ASTRA LEDs via Bluetooth®.

iPad interface with built-in Cortex®-A8 processor plus reliable Apple certified tethered connection.

DIGITAL DIRECTOR

EASILY CONTROL YOUR
CAMERA REMOTELY THANKS
TO THE DEDICATED APP

Digital Director simplifies image making: just tap to set up and control your camera, shoot, check, edit, share and manage your pictures.

DIGITAL DIRECTOR

1 . SETUP

REMOTE CONTROL OF CAMERA AND LEDS & TIME LAPSE QUICK SET UP

Monitor and dynamically modify all key DSLR parameters (exposure, ISO, shutter speed, aperture, manual focus, white balance, image quality, focus/camera/drive modes).

Quick and easy setup of intervalometer and time lapse (photo mode only).

Remote control of up to 13 Manfrotto LYKOS & Litepanels ASTRA LEDs via Bluetooth® (on/off, adjust dimming level and color temperature, set up groups and configure/save multiple scenes).

PHOTO MODE

VIDEO MODE

TIME LAPSE SET UP

2 . SHOOT

REMOTE SHOOTING VIA iPad RETINA DISPLAY

Effective real time “Live View” monitoring via USB cable: ensures high performance by stably connecting the devices. Interactive Focus, Digital Zoom, Focus Peaking, Zebra filter and Dynamic Histogram - for greater control when shooting.

INTERACTIVE FOCUS
With Interactive Focus the focus point can be selected anywhere on the screen. Digital Zoom magnifies the selected focus point to ensure crispy accurate focus.

FOCUS PEAKING
The Focus Peaking Filter highlights focused profiles on the image (intensity and color profile can be adjusted).

ZEBRA
The Zebra filter uses striped patterns to show the over- and/or underexposed areas of the image.

PORTRAIT LAYOUT
Auto-adjustment for portrait orientation.

EASY SHOOT

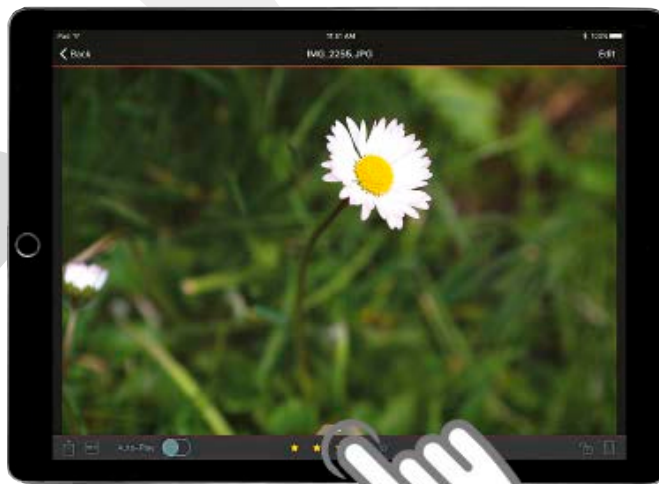

3 . CHECK

DOWNLOAD YOUR IMAGES
ONTO AN iPad

Download RAW and JPEG images onto iPad. Rate and assign keywords to them. Check all details of the JPEG images you're shooting by viewing the downloaded file, using standard iPad "gestures".

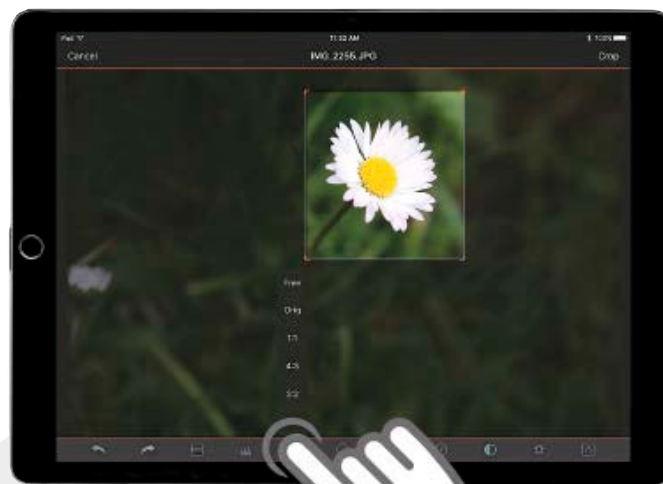

4 . POST-PRODUCTION

INTUITIVE IMAGE ADJUSTMENT

Put the finishing touches on your work in the same App: check the image's general information, histogram, crop free or with proportion, rotate, set exposure, saturation, contrast, light, blur and save your image.

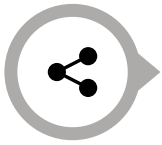

5 . MANAGEMENT

SIMPLE SHOOT MANAGEMENT

Organize your albums and images, filter by rating and keywords.

6 . SHARING

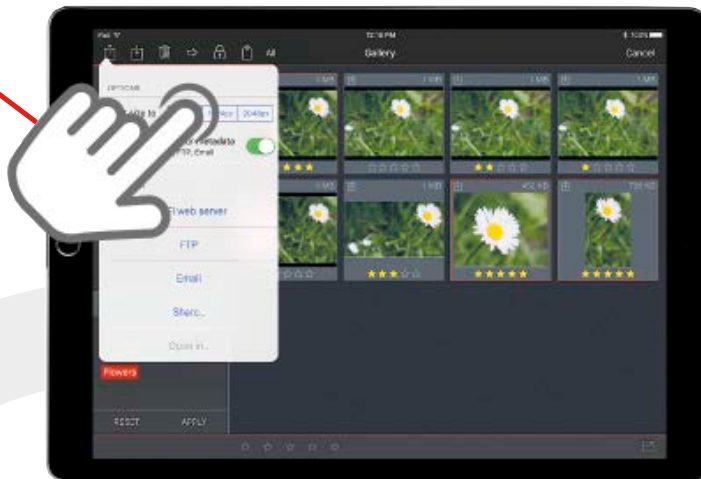

CONTENT SHARING

Choose from many ways to share your images:

- via your preferred social network App
- via Wi-Fi web server
- direct to FTP
- by e-mail

With the Manfrotto Digital Director plug-in for Adobe® Lightroom® for desktop, you can import the additional Digital Director metadata of pictures you've shared from Digital Director - via Wi-Fi web server, e-mail and FTP - into Adobe® Lightroom® for desktop.
